

The Power to Recycle

The Rechargeable Battery Recycling Corporation (RBRC) is a non-profit, public service organization dedicated to rechargeable battery recycling. RBRC's mission is to promote the recycling of used rechargeable batteries found in many cordless electronic products. Call2Recycle® – is the result of the industry's determination to conserve natural resources and prevent rechargeable batteries from entering the solid waste stream. RBRC is funded by more than 350 manufacturers and marketers of portable rechargeable batteries and products. Visit their website at rbrc.org

Milwaukee Tool

Milwaukee Tool offers a complete line of tools that combine power, speed and portability in a smaller package. All M12 tools are powered by 12V LITHIUM-ION batteries which offer longer run-time, weigh less, are environmentally friendly and completely recyclable.
