

## Unlikely Partners?

These manufactures have partnered to support an important cause: water conservation.

As partners of WaterSense they have committed to offering a variety of water conservation products to help save water, energy and money.

WaterSense, a partnership program sponsored by EPA, seeks to protect the future of our nation's water supply by promoting water efficiency and enhancing the market for water-efficient products, programs, and practices. WaterSense will help identify water-efficient products and programs. The WaterSense label will indicate that these products and programs meet water efficiency and performance criteria. WaterSense labeled products will perform well, help save money and encourage innovation in manufacturing.

Currently WaterSense has certified toilets and bathroom faucets with certification in process for urinals and showerheads. First Supply, a proud WaterSense partner, offers a wide variety of both WaterSense labeled toilets and bathroom faucets.

Visit [www.1supply.com](http://www.1supply.com)'s GREEN page for more information about the WaterSense labeled products available from First Supply.
